

AKASOL starts series production with ELAM

In the new gigafactory of AKASOL AG, the series production of the 48-volt-battery system AKARack has been successfully ramped up, secured by highest technology standards thanks to our ELAM System. With this project Armbruster Engineering and Schulz Engineering start their partnership to equip semi-automatic assembly systems.

Best organized in component preparation

In Lahnau, the KEBA Industrial Automation Germany GmbH produces control units for various drives. Two assembly lines and a single workstation have already been set up with our ELAM system. Now the ELAM document display guarantees KEBA to be best organized also in component preparation.
